### **General** notes

### **Monitor Adaptations**

The quick release monitor adaptation with adapter plate for VESA 75/75 (part no. Z-QR-C) allows a quick change of the monitor. Please note that the quick release adapter plate has to be ordered separately.

The 5" plunge plate is used for bottom-mounted monitors. A monitor-specific adapter plate (AVS), which is mounted underneath the monitor and slid into the 5" plunge plate, is included in each shipment.

#### **Components' grounding**

All arms with integrated cable management are equipped with **component grounding**. No grounding is required for arms with external or semi-integrated cable management with cables not being led through joints.

### **Load capacity**

All height adjustable arms have a load capacity of 22 kg / 48.5 lbs. Rear mounted monitor adaptations and horizontally mounted 5" plunge plates accept a maximum monitor weight of 18 kg / 39.7 lbs. An additional 4 kg / 8.8 lbs may be mounted on a down post underneath the front swivel part. Depending on material and tensile factor all weight indications have a 4-fold and / or 6-fold safety factor according to EN 60601-1, 3rd Edition regulations.

### **Custom-designed solutions and MRI applications**

Please contact us for custom-designed solutions.

### **Product marking**

All CIM products are CE marked. As medical product risk class 1 and they conform with the regulations MDD 93/42 ECC and EN 60601-1, 3rd Edition. TUEV reports for numerous products especially for anaesthesia applications guarantee electrical and mechanical safety of our products and are available upon request.

### How to create part numbers

### Part numbers can be easily created by following the steps below:

Please replace the letters in green with the part no. code as per your requirements.

1. Components' grounding:

 $egin{array}{lll} S & = & & \mbox{not grounded} \ A & = & & \mbox{grounded} \ \end{array}$ 

2. Choose the arm version required:

910Q = flush mount qube 224Q / 230Q = support arm pivot qube

224AVS / 230AVS = support arm pivot qube with docking station

33030Q = extended pivot arm light duty qube

= extended pivot arm light duty qube with docking station

431Q = height adjustable arm qube

431AVS = height adjustable arm qube with docking station

73130Q = extended height adjustable arm qube

73130AVS = extended height adjustable arm qube with docking station

3. Specify where you want to mount the arm and select the fixing (Y):

1V = pole  $\emptyset$  23 - 40 mm / 0.9 - 1.6" 1 = pole  $\emptyset$  25 mm / 1.0" 1F = pole  $\emptyset$  35 mm / 1.4"

1C = pole ø 38 mm / 1.5"

2F = horizontal rails 10 x 25, 8 x 35, 10 x 30, 10 x 50 mm

= vertical rail 10 x 25 mm

3DR = dual vertical rails, distance 150 mm/ 5.9" 3TX = dual vertical rails, distance 225 mm/ 8.9"

4V = vertical wall channel

13 = Mindray medical supply units 17 = Amico pendants & headwalls

9 = Löwenstein Medical anaestesia machine 4K = anaestesia machine with existing channel

4. Choose the colour requested for decorative parts (C):

gr = RAL 7024 (graphite grey) gr = RAL 5013 (cobalt blue)

5. Choose the colour requested for the aluminium die-cast parts (D):

1 = RAL 9016 (traffic white) 2 = RAL 9002 (grey white)

6. Specify the spring depending on the weight of your monitor/ device - only with height adjustable arms (X):

 $= 4 - 9 \, \text{kg} \, / \, 8.8 - 19.8 \, \text{lbs}$ 

## **Example**

01 Grounding		02 Arm version		03 Fixing	04 & 05 Colour		06 Spring tension
A	-	431Q	_	Υ	CD	_	X
A	_	431Q	_	4V	gr1	_	95

## **Quick release adapter plate VESA**

### VESA 75 Quick release adapter plate (Z.QR-C.D)

The adapter plate shown is mounted to the rear side of the monitor's hole pattern 75 x 75 mm (2.9 x 2.9"). The quick release adapter plate has to be be ordered separately.

### **Product highlights**

### Non-height adjustable arm

Pivot and extended pivot arms offer full cable integration and easy cleaning for infection control in all critical care areas in the clinical environment. Our 5-years warranty guarantees reliable, trouble-free and maintenance-free operation. The swivel function at the fixing point as well as the tilt/swivel function of the monitor adaptation offers optimum positioning of your device. The extended pivot arm is a two-part arm with central pivot point between the two arm sections. All bottommounted monitors have the safety feature of a 20° tilt stop.

### Height adjustable arm

The height adjustable arm offers **full cable integration**, one-wipe clean surfaces and our **5-year warranty** on the entirety of the product. Vertically and horizontally adjustable, the arm offers optimal positioning of your device. A constant viewing angle when vertically adjusted is guaranteed by a parallel linkage. **Weight-optimized springs counter-balance** the monitor without making any adjustments. All bottom-mounted monitors have the safety feature of a **20° tilt stop**. Individual rotational stops may be integrated in any joint.

To provide the perfect combination of arm and monitor, the CIM articulated height adjustable arm has a simple quarter-turn lock to hold the arm safely in position when removing the monitor. Furthermore the arm is equipped with the unique safety feature of a slow-release gas spring. Should anybody try to remove the monitor before locking the arm in position, the arm will only rise at a slow and even tempo.

## Flush mount qube
